# CITRUS STORAGE

## CITRUS MA-MH BAG (CMAP)

'ANTIMICROBIAL EFFECT' against major postharvest pathogens (specifically *Penicillium* spp. ).

Produced by using 'NANOTECH' compounds.

'FIRST' 'ACTIVE' MA-MH bag in the world developed specifically for CITRUS.

Created its own 'GENERATION' in the MAP market.

Please visit our web page ([www.trendlife.com.tr](http://www.trendlife.com.tr)) for more information.

## CITRUS WRAPPING FILM (CWF)

'ANTIMICROBIAL EFFECT' against major postharvest pathogens (specifically *Penicillium* spp. ).

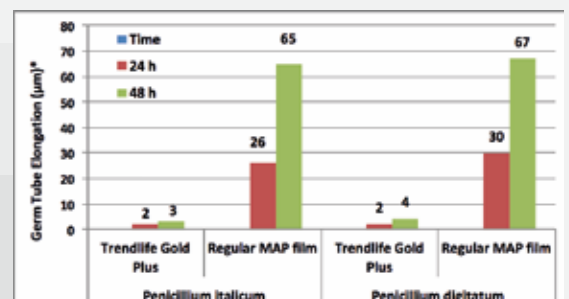

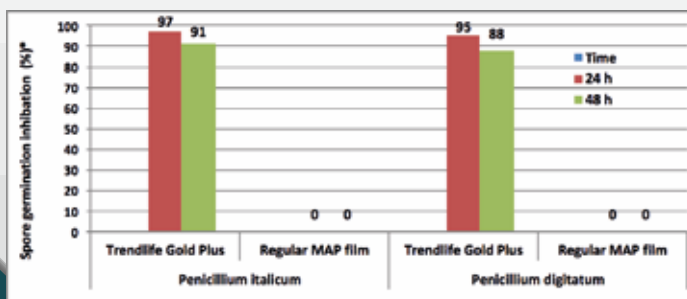

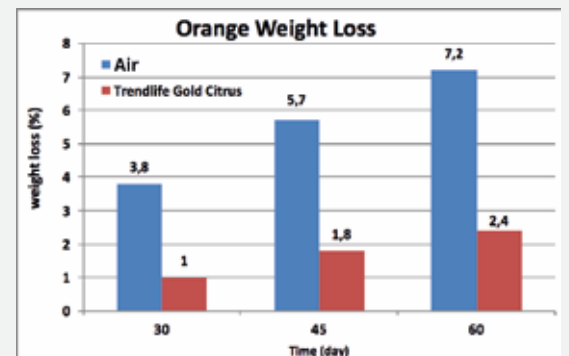

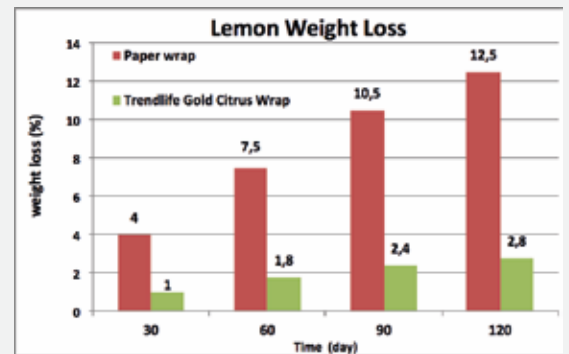

Produced by using 'NANOTECH' compounds.

'FIRST' 'ACTIVE' MA-MH film in the world developed for fresh produce industry.

Created its own 'GENERATION' in the MAP market.

Please visit our web page ([www.trendlife.com.tr](http://www.trendlife.com.tr))

for more information.

\*This experiment was conducted in laboratory at room temperature in petri dishes where all conditions favor the growth of microorganism.
